## GI-Galleon

## - True double-conversion online UPS

A true double conversion UPS will provide clean, high level quality power to fully protect mission-critical devices such as sensitive networks, small computer centers, servers, telecom applications, as well as for industrial applications.

## - Output power factor 0.8

Compared to the online UPSs in the current market, Galterdieoerseries provides better output power factor up to 0.8 . It offers higher performance and efficiency for critical applications.

- Wide input voltage range ( $110 \mathrm{~V}-300 \mathrm{~V}$ )
 unstable power environments.

## - Programmable power management outlets

 With programmable power management outlets, users can easily and independently control load segments. During power failure, this feature enables users to extend battery time to missioncritical devices by shutting down the non-critical devices.Programmable Outlets [P1] - connect to non-critical devices

## - 50/60 Hz Frequency Converter Mode

Lock output frequency at 50 Hz or 60 Hz to suit power sensitive equipments.

## - ECO mode operation for energy saving

Offers efficiency as high as $97 \%$ to cut energy usage \& cost. UPS power application via static bypass, timely returning to online double conversion when the need arises.

## - Emergency Power Off (EPO) Function

This feature can secure the personnel and equipment in case of fires or other emergencies.

## - SNMP+USB+RS-232 multiple communications for 1-3K models

This feature allows either USB or RS-232 communication port to work with SNMP interface simultaneously.

[^0]
## - Smart battery charger design to optimize battery performance

-Gatherdiedr3K-3trsessiisseiquinpuiedwith 2-stage charger design to guarantee battery discharge time. Besides, it will adjust charging voltage according to outside temperature. This features will extend the useful service life of batteries. - Galtredreok akdroup unpordeldelseazquinpuipqфedthvishstage extendable charger for optimized battery performance. This feature extends the useful service life of batteries and optimizes battery recharge time. Besides, the extendable charger design can be stacked in numbers for large-capacity battery charging.

## - Maintenance bypass available for 6K and up models

Internal bypass assures continuous power to critical devices during UPS maintenance.

- Optional hot standby mode and $\mathrm{N}+\mathrm{X}$ parallel redundancy available for 6 K and up models For genuinely redundant power protection, Galleon ( 6 K and up models) can either be used in parallel operation with up to 3 units or hot standby mode. Slave UPS will back up the load in the event of critical component failure. It increases power safety and availability.
- Adjustable battery numbers for 6 K and up models
 18 or 19 internal batteries.
- Built-in isolation transformer (Option) With built-in isolation transformer, the UPS will offer full isolation and complete common mode noise rejection for connected precious equipment.lt become an ideal power source with $100 \%$ protection against unexpected AC power problems.

## GI-Galleon Rackmount/Rack Tower (Option)

- True double-conversion
- Wide input voltage range (110-300 VAC)
- Input power factor correction 0.99
- Output power factor 0.8
- $50 \mathrm{~Hz} / 60 \mathrm{~Hz}$ frequency converter mode
- Programmable power management outlets
- Emergency power off function (EPO)
-ECO mode operation for energy saving (ECO)
- SNMP+USB+RS-232 multiple communications
- Smart battery charger design for optimized battery performance
- Selectable output voltage via LCD panel
- Optional isolation transformer offers full isolation and complete common mode noise rejection
- Hot-swappable battery design (only available for 1-3K)

## MANAGEMENT

Smart RS-232/USB
Supports Windows ${ }^{\circledR}{ }^{\circledR}$ 2000/2003/XP/Vista/2008, Windows ${ }^{\circledR}{ }^{\circledR} 7 / 8$, Linux, Unix, and MAC
Optional SNMP Power management from SNMP manager and web browser
*In LV system, only 12VI7Ah $\times 3$ for 1 K model and $12 \mathrm{~V} / 7 \mathrm{Ah} \times 6$ for 2 K model are available
NOTE 1: Derate to $60 \%$ of capacity in CVCF mode and to $90 \%$ when the output voltage is adjusted to 208VAC.
NOTE 2: If the UPS is installed or used in a place where the altitude is above than 1000 m , the output power must be derated one percent per 100 m .
** L means long-run model

## Software

## ViewPower - UPS Management Software

* Allows control and monitoring of multiple UPSs via LAN and INTERNET
* User-friendly power analysis graphs
* Real-time dynamic graphs of UPS data
* Safely OS shutdown and protection from data loss during power failure
* Warning notifications via audible alarm, broadcast, mobile messenger, and e-mail
* Scheduled UPS on/off, battery test, programmable outlet control, and audible alarm control
* Password security protection and remote access management
* Supports multiple OS and local languages

## Accessory

## Remote Control Agent

## SNMP Card

* Allows control and monitoring of multiple UPSs through RJ-45 network connection
* Real-time dynamic graphs of UPS data (voltage, frequency, load level, battery level)
* Warning notifications via audible alarm, broadcast, mobile messenger, e-mail and SNMP traps
* Historic data log stored in centralized PC database
* Simple firmware upgrade with one click
* Password security protection and remote access management
* Supports optional environmental monitoring detector for temperature, humidity and smoke
* 2-year product warranty

AS-400 Card

* Capable of selecting the status of the dry-contact signal by setting jumper to meet different application requirements.
* Suitable applications: IBM Server, Personal PC \& Workstations equipments, Auto-controlled industrial equipment \& communication applications

## Rackmount Slider

Simple installation for mounting Galleon Rack in your server rack enclosure.

PDU \& Maintenance Bypass Switch
(3) 38 (8)

External Maintenance Bypass Switch

Automatic Transfer Switch (ATS)

[^0]:    - DSP technology applied for 6K and up models A DSP controller provides an improved and cost-effective solution with high performance.
